

Digital Resource Consent

FCPS is required to obtain parental permission for student use of software/applications for which FCPS does not have a confidentiality agreement. A web form has been developed to collect the information necessary for parents to grant permission digitally.

1 Parents and Families are to log into their ParentVue Account

Use the QRS Code or go to <https://sisparent.fcps.edu/> to access

2 Once in Parentvue, families should go to FCPS Links then click on School Adopted Digital Resources

3 You will need your student's ID and your email or phone number used during registration to log into the system.

Agree to the permissions. Click on your student's name. You will then go to the application permission form where you will

then consent your student's use of supplemental digital

then consent your student's use of supplemental digital tools. **You will need to do this for each student** in your
